Warrior's Newsworld

Two Women, Two Men Named In Interim Report on Probe

By GEORGE KITCHEN

OTTAWA, March 4.—(CP)—Four Canadian-born civil servants today were charged in court under the official Secrets Act as the government disclosed the ramifications of a vast "network" of Soviet under-cover agents seeking information on the atomic bomb, radar, explosives, the make-up of the Canadian army and the movement of United States troops returning from Europe.

Hopes Others Will Too

Lecturer Offers Himself As Atomic Test Guinea Pig

By VIRGINIA MACPHERSON

LOS ANGELES, March 4.—(BUP)—Lecturer William Parker, 46, who offered himself to President Truman, as a guinea pig in the atomic bomb tests, said today he had always planned to die for his body to science when he got ready to die.

"If the GOVERNMENT is going to do that tremendous sum of money to destroy something," Parker said, "I figure they might as well make it worth while and study the effect of radioactivity on humans."

He hopes a dozen or so more Americans will feel the same way. His idea, he said, was to sprinkle the guinea pig throughout the Pacific when the navy gets ready for the tests next May.

"On an island inside the explosive zone, maybe," he added. "Then when it's over they can examine our dead bodies—if there's enough left—and study the results of radioactivity on humans."

"I'M NOT DOING IT FOR just cheap publicity," he said. "But I'm a great believer in science. I always planned to offer my body to some laboratory when I got ready to die. Well, I've had a good time out of life and I figure now as good a time as any."

Parker wrote the President he was "in good health" and had "no dependents."

For Collaboration

Canadian, British NCO's To Face Court Martial

OTTAWA, March 4.—(CP)—Two non-commissioned army officers, one Canadian and one British, will be tried by court martial at Winnipeg this month on charges alleging collaboration with the Japanese and ill-treatment of fellow prisoners of war after the fall of Hong Kong it was announced today.

Thieves Get \$400

In City Break-In

More than \$400 in cash and war bonds was stolen from premises of a city official in a break-in at 1154 13th street in a break-in early Sunday morning. The included \$300 in war bonds and \$100 in cash.

The break-in was discovered at 6:45 a.m. Sunday when Constable R. Cameron heard a humming noise in the building. He went to investigate and found a man in a suit and tie, who was trying to break into the building. He was caught by the police and taken to the police station.

BEFORE THE PROSECUTOR came from the police headquarters could reach the scene, the burglar had managed to make a getaway. The scene was gained by breaking a window under the leading platform, leading to the basement of the building which is occupied by Smith Davidson and Wright Ltd., Central Dry Goods Ltd., and Adams Bros. First floor was entered by smashing a door leading to the stairs.

The burglar is believed to have left the building via a transom window at the rear of the premises. Police profiler cars carried out an extensive search of the area but were unable to locate the burglar.

M. S. WAINWRIGHT, manager of Central Dry Goods Ltd., and M. J. HELLER, employee of Smith Davidson and Wright Ltd., made a check of their premises and reported that nothing had been disturbed.

Youth Fined \$30

For Flying Plane

AN 17-year-old Vancouver boy was fined \$30 in juvenile court Friday when convicted of flying an aircraft without a pilot's license. The charge arose out of an accident in the Fraser river between the Vancouver airport and New Westminster last October. The lad told the court that he did not intend to fly the airplane but was taken to the river where a wave struck it and caused it to become airborne.

Chaplin's Wife

Expecting Stork

HOLLYWOOD, March 4.—(AP)—Chaplin and his wife, Paulette Goddard, are expecting their second child within a few days. Their first child, a girl, was born in August, 1944.

Two Negroes Held

Club-and-Noose Murders Probed By U.S. Police

INDIANAPOLIS, March 4.—(AP)—Indiana state police said today Joseph L. Woolridge, 25-year-old Negro janitor, had made a signed statement in which he confessed the slayings of Russell Koonis and Mrs. Phyllis Coleman in an abandoned stone mill near Bloomington, Ind.

These are the accused: Capt. Gordon E. Mann, a member of the Canadian Information Service, described as a "head" of a group of Canadian agents operating under Soviet direction.

Before their arraignment, the four were technically released from the big RCMP barracks, where they have been held in close detention since Feb. 18, and then re-arrested on two charges each under the official secrets act—charges which can bring a maximum of seven years' imprisonment on each count.

Speed Up Work For Prosperity

LONDON, March 4.—(Reuters)—Prime Minister Attlee last night demanded of the people of Britain a production drive for prosperity equal to the intensive effort they displayed in producing munitions during the critical post-Dunkirk days of 1940.

He urged workers to remain in or resume their factory, shop or land jobs; older people to carry on at their jobs; employers and workers to settle disputes without recourse to strikes; and warned the only way to reduce unemployment was to produce more. He asked employers to abandon "any restrictions of output which have arisen since the war."

"During the war there was a wonderful team spirit in the nation and he wanted everyone 'to re-assert the spirit which brought us through the war.'"

"Apart from any temporary relief we may get by loans from our friends across the Atlantic, we can only buy our way through it if we can pay by exporting goods."

THE BROADCAST touched off a week's intensive campaign to speed up work for prosperity.

LONDON, March 4.—(BUP)—The foreign office announced today that the British embassy in Moscow had been instructed to ask the Soviet government why Red Army troops are remaining in northwest Iran.

FRANK ROBERTS, British charge d'affaires in Moscow, was instructed to inquire into all aspects of the situation in Iran, a foreign office spokesman disclosed.

So far no official Soviet communication from Moscow regarding the situation in Iran has reached the British government, the official comment source reported.

The spokesman indicated Britain was making inquiries, as one co-signer, why another had failed to do so.

Tax Collection Record Likely

All previous records for collections of arrears of city land taxes appear likely to be broken during 1946 as collections for the first two months of this year show an increase of \$46,000 over the same period of 1945.

TOTAL COLLECTIONS for the two-month period of 1946 amounted to \$19,085.47, compared with \$261,088.71 for the same period last year. The increase of \$46,000 is due to the sale of city-owned property confiscated for non-payment of taxes, and \$2,000 in payment of current tax arrears.

Of the arrears of land taxes collected \$10,000 came from the sale of city-owned property confiscated for non-payment of taxes, and \$2,000 in payment of current tax arrears.

Of the arrears of land taxes collected \$10,000 came from the sale of city-owned property confiscated for non-payment of taxes, and \$2,000 in payment of current tax arrears.

Information

(Continued from Page 1)

location of the Brazilian Infantry Division. Whether or not there has been organized a staff for the American troops in Germany and if so, its location and the name of the officer-in-command.

B. The location of the 1st Parachute troops and the plans for their future use.

C. Instructions to take measures to obtain particulars as to the materials of which the atomic bomb is composed, its technological process and drawings.

4. To obtain from the National Research Council models of developed radar sets, photographs, technical data, periodic reports characterizing the radar work carried on by the council and future developments planned by the council.

5. Particulars of the explosives establishments at Valcourt, Que. and its work, including the obtaining of the formulas of explosives and samples.

6. Full report on the organization and personnel of the National Research Council. Give more detail on organization of research council. Mention as to get to their leaders and find out what they do.

7. PARTICULAR WORK OF specified employees of the research council.

8. The obtaining of documents from the library of the National Research Council so that they might be photographed, with the expressed intention of ultimately obtaining the whole of the library of the National Research Council.

9. Particulars as to the plant at Chalk River, Ontario, and the processing of uranium.

10. The obtaining of a sample of uranium 235, with details as to the plant where it is produced.

11. Specifications of the electro-projector of the "V" bomb.

12. RESEARCH WORK being carried on with relation to explosive materials and artillery.

13. The obtaining of material on the American airplane radar location type, navigation principle.

14. A list of the army divisions of the Canadian Army which have returned from overseas and the names, or numbers, of the divisions which have been divided, or reshaped, or undergoing reshaping.

15. The number of troops in the Canadian Army in the post-war period, together with the system of its organization.

16. INFORMATION from the department of munitions and supply of various kinds relating to guns, shells, small arms, ammunition for small arms, aircraft, automobiles and tanks, apparatus for chemical warfare and particulars of plants producing same.

17. Information as to electronic shells used by the American navy.

18. To endeavor to keep agents in government departments threatened with discharge as a result of shrinkage in size of departments, in order to maintain their usefulness for the future.

19. Information with regard to operations.

THERE OUGHTA BE A LAW

(Continued from Page 1)

Court Martial

(Continued from Page 1)

About Feb. 2, 1944, the statement said. Against him, too, are 29 other charges of taking more than his share of Red Cross parcels, arriving as an American surgeon medical officer, disobeying an order from a British officer not to strike a fellow prisoner, three charges of assault and 20 charges of striking fellow prisoners.

TUGBY FACES IS CHARGES of collaboration with the Japanese, securing more than his share of Red Cross parcels, improperly detaining fellow-prisoners, of Red Cross comforts, stealing, improperly exercising disciplinary powers over prisoners, five charges of assault and nine of striking fellow prisoners.

The collaboration charge, common to both, reads: "At Oeyama prison camp, Japan, between the 2nd day of September, 1943, and the 10th day of September, 1943, while a prisoner of war in Japanese custody, improperly collaborating with the detaining power, viz. Japan, by improperly fraternizing and associating with members of the armed forces of that country and by enforcing Japanese instructions and regulations detrimental to the well-being of Allied prisoners of said camp."

BOTH COURTS WILL be preoccupied with double charge of double bombs and double charge of double bombs.

20. Information as to telegrams passing into and out of the department of external affairs and the office of the high commissioner for the United Kingdom.

The report added: "It must be assumed that the above list is exhaustive, but it illustrates the nature of the objectives of these operations."

20. Information with regard to operations.

Attlee Speech

(Continued from Page 1)

about British production. This week cabinet ministers will hold a series of conferences with the army and workers to work out details on how to get goods back to normal.

Mr. Attlee emphasized Britain is seriously short of labor, partly because of the need for more exports, partly because of conscription of German and the unemployment of world conditions demonstrate men are retained in the armed forces than normal in peace time and partly because of great arrears of work piled up during the war.

The only way this shortage could be overcome and output increased was by "using labor effectively by utilizing every resource of inventiveness, organization and scientific knowledge and by all, whether managers or wage or salary earners, doing their best."

BUT THE OUTLOOK was not entirely gloomy, the prime minister said.

"The enormous task of demobilization has proceeded smoothly. The process of reconverts industry from war to peace is being accomplished with great credit and all concerned, the flow of goods into shops is steadily increasing."

He said the slightest doubt that we shall come out triumphantly through this testing time of 1946 just as we came through 1945.

"LET US ALL march forward together cheerfully, strong and resolute to win the war against want as we conquered in the fight for freedom."

He said the word "let" was a challenge to the organization set up and under development by Col. Zabotin and his predecessor.

The report said the commission-ers Robert Tachereau and L. K. Kellock, of the supreme court of Canada, had before them Jean Guentzko, the cipher clerk of the military attaché, who had been in the organization and its functioning, and who has produced original documents, the authenticity of which was accepted.

Previous unofficial reports had said that Guentzko, in fear of his life, had gone to the Canadian authorities last September and disclosed that the atomic bomb was being developed by the organization and its functioning, and who has produced original documents, the authenticity of which was accepted.

The report said the commission-ers said documents provided by Guentzko showed that Col. Zabotin had received telegrams from "the director" at Moscow under the cover name of "Grant" last August.

These telegrams committed Col. Zabotin to the following specific tasks:

1. The technological process and methods employed by the Canadian and the British for the production of explosives and chemical materials.

2. Instructions as to which of the members of his staff should contact particular Canadian agents and the suggestion of the names of persons in the department of national defence for naval affairs who might act as agents.

3. INSTRUCTIONS to take measures to obtain particulars as to the location of which the atomic bomb is composed, its technological process and drawings.

The report said the telegrams also directed Col. Zabotin to obtain the following:

"Information as to the transfer of the American troops from Europe to the United States and the Pacific; also the army headquarters of the 9th army, 2nd, 5th, 11th, 13th Army Corps, the 18th Armored Division, the 2nd, 4th, 8th, 20th, 30th, 44th, 45th, 104th Infantry Divisions and the 13th Tank Division, together with the dates of their moves, the location of the army headquarters of the 8th and 18th Armored Corps, the 20th and 30th Infantry Divisions, the 10th Tank Division and the location of the Brazilian Infantry Division."

"WHETHER OR NOT there had been organized a staff for the American troops in Germany and if so, its location and the name of the officer-in-command."

The location of the 1st Parachute troops and the plans for their future use."

The report said Moscow also directed its agents to obtain during the period from March to August, 1945, a list of Canadian army divisions which have returned from overseas and the names or numbers of divisions which had been divided or re-shaped or undergoing reshaping.

THEY ALSO SOUGHT information on the number of troops in the post-war Canadian Army and its system of organization.

Other instructions included the

Wild Gun Battle

(Continued from Page 1)

to secret documents and provided information from them.

ALL FOUR were remanded to March 11 and lodged in the county jail. No bail was set.

Mrs. Wolke pleaded guilty to the two charges while the other three pleaded not guilty.

Their appearance, in the dingy courtroom of the Ottawa district court, brought an array of conflicting emotions.

Mr. Wolke looked bewildered. Mrs. Wolke appeared quietly severe. Maxwell was in tears while Cogan smiled brightly.

The evidence indicated that, in addition, many other agents were active and that information more important than that which has been disclosed. We are not, however, in a position to report what there is as the evidence has not been fully developed."

The court made no reference to the fact that the four persons named because the investigation into their part in the spy ring had been concluded.

Mr. Maxwell said he had been in custody since the investigation was launched more than two weeks ago.

The report said that the evidence established that a "network of agents" had been organized and developed for the purpose of obtaining secret and confidential information from the principal employees of departments and agencies of the federal government.

It disclosed that these operations were carried on "under direct instructions" from the "chief members" of the staff of the Canadian War Relocation Authority.

"The person directly in charge of these operations was Col. Zabotin, who had been in the staff of the Canadian War Relocation Authority."

Col. Zabotin, the report said, was the assistant military attaché at the Canadian embassy in London, England, one of the chief members of the staff as well as other members of the staff of the Canadian War Relocation Authority.

He was also the assistant military attaché at the Canadian embassy in London, England, one of the chief members of the staff as well as other members of the staff of the Canadian War Relocation Authority.

Anti-British Riots

(Continued from Page 1)

CAIRO, March 4.—(BUP)—Anti-British rioting flamed across Egypt again today and dispatches from Alexandria said 10 persons were killed and 150 or more injured in a wild gun battle in that British naval base.

A BRITISH UNITED PRESS correspondent telephoned from Alexandria that frenzied mobs were racing through the streets setting fire to cafes and hotels and attacking British and Egyptian police squadrons.

He reported that gunfire could be heard all over the centre of the city as native police patrols fired repeatedly into the mobs in an unsuccessful effort to disperse them.

Preliminary estimates on the casualties indicated that 10 persons were killed and 150 injured, while five British military policemen were said to have been wounded when the crowds set fire to a British military station.

The rioters were armed with a variety of weapons, including a British military establishment.

POLICE CORDONED OFF the entire Mohammed Ali Square district in the heart of the city and began arresting everyone on the streets.

Simultaneous arrests of military guards were thrown around the city and British military establishments in the port city and Egyptian army units mounted guard over the principal hotels from Europe.

A general curfew came during a nationwide curfew called in mourning for the Egyptians killed in last month's military strike.

GOVERNMENT spokesmen said Hassan Rifat Pasha, under-secretary of state for interior, was in Alexandria to investigate the report of the damage.

Reports from other parts of the country indicated that the riots outside Alexandria and Cairo were remaining orderly, although some minor disturbances had not been completely eliminated.

In Cairo, the British military police were being called in to maintain order and the British military police were being called in to maintain order.

Wheat Shortage

(Continued from Page 1)

OTTAWA, March 4.—(CP)—A world wheat shortage of "well over 5,000,000 bushels"—more than 180,000,000 bushels—during the first six months of 1946 was seen by the Dominion Bureau of Statistics Saturday in its monthly review of the wheat situation.

Information collected from various sources shows famine conditions in several Balkan countries as well as many areas in India and the Far East, and it is believed that conditions here will be aggravated by the crop shortage.

The BUREAU SAID poor crops of rice and millet in India and the Far East have "seriously aggravated" the general food shortage.

Canada's commitments already are on such a level that domestic consumption, at least for livestock feed, must be curtailed.

In addition, if all commitments are met, wheat stocks at the end of the current crop year will be reduced to the bare minimum needed to take care of requirements until the new crop is harvested.

Former Lethbridge Soldier Is Awarded Medal by Czechs

OTTAWA, March 4.—(CP)—Capt. Jozef Gullion of Lethbridge, Saskatchewan, has been awarded the Czechoslovak Medal of Merit (first class) by the Czechoslovak government.

Defence officials said they had not received the citation accompanying the award.

Capt. Gullion, a native of Scotland, is a former resident of Lethbridge, Alta., and was a manager of a wholesale grocery business before joining the army in March, 1940.

He is 79 years old.

March Blizzard Isolates Parts Of South England

LONDON, March 4.—(AP)—A snow blizzard swept southern and central England Saturday, piling up snowdrifts 12 feet deep in scattered areas.

A Spanish steamship Ría de Cornes, carrying aircraft and woodpulp from Stockholm to Spain, sank at her berth in Dover harbor Saturday night after being saved from shipwreck in the channel.

The crew of 28 got ashore safely. The ship had run aground on Goodwin sands and was towed into harbor. Some villages in Kent were isolated by the storm. Many roads were reported running short.

Many main roads in the eastern part of the country were impassable with automobiles and buses trapped by the snow.

Scandal Protested

Charges German Girls Live With U.S. Officers

By RICHARD O'NEAL

FRANKFURT, Germany, March 4.—(AP)—A British girl charged in the United States Army newspaper, Stars and Stripes, Sunday, that German girls were being permitted to "live" in the United States forces' headquarters compound "here with American officers."

Wizard's Test

THE CHAPLAIN for the European theatre, Col. L. Curtis Tiers, said the girls' letter brought into the open the "prevalence of looseness and immorality, and the general breakdown of army discipline in Europe." Another chaplain said he was "glad the scandal has come at last into the open."

The compound, comprising several square miles, is a barbed wire enclosed area where the massive houses army agencies. Officers and civilians billeted in the enclosure are permitted to take girls in any time except between 10:30 p.m. and 8:30 a.m.

Guests must leave by 8:30 a.m. with each officer himself signing his guest out. On work-days, girls are permitted to stay within the compound over Sunday but must leave early Monday morning.

THE REGISTER SHOWED 130 officers and civilians, including ranks as high as Lieutenant Colonel, signed in guests Saturday night.

The British girl's letter asked: "Why should German girls be allowed to live in the compound with American officers? I know of several instances and if necessary would lead officials to men I consider to be rotten to the core. . . . 'Maybe they have not lost any thing in this war or suffered and hardships, and that is why they can forget the Krauts they are with are part of the evil which caused so much suffering in this world.'"

Murder Probe

(Continued from Page 1)

18 inches of water at the bottom of a pit in the mill, after a prolonged search.

HE SAID KOONTZ had been strangled to death with a blunt instrument and Mrs. Coleman had been strangled with a heavy piece of cord or wire. Blood stains and the scene Koontz' locked car was found nearby.

Servin said the newest clue to the killings was provided Sunday morning by a farmer who said a neighbor had borrowed his tractor Saturday night to pull a car out of a ditch.

Mrs. Coleman and Koontz, both members of the Clear Creek church five miles south of Bloomington, had sang together in the church choir for some time. Both were married.

The search for the two began late Friday when Mrs. Koontz called a friend of her husband and in-

Fires

(Continued from Page 1)

and Mrs. Peden's brother, James Evans, were downstairs.

FRANTIC EFFORTS of the parents and Mr. Evans to rescue the little girl were beaten back by flames which completely blocked the stairs when first seen. Neighbors joined in the rescue effort but were also turned back by the dense smoke and heat.

A second tragedy was narrowly averted when Chester Gutz, 8104 82 avenue, was overcome by smoke while trying to reach the trapped child. He was pulled to safety by neighbors.

Fire alarm was phoned in from Gibson's service station, 8184 Whyte avenue, by Selma Reinke, when Mrs. Peden ran into the premises yelling that her home was on fire. Rigs from No. 6 hall responded under direction of Assistant Chief Tom Harvey. Firemen were forced to lay a single line of hose three blocks long and a bonser pump was required to keep up pressure.

Body of the child was removed from the burning structure by firemen, who stated that flames were shooting from all windows in the home when they arrived.

ANNETTE'S FATHER was treated for facial and hand burns at the Royal Alexandra hospital. The burns were suffered during his efforts to reach his trapped daughter.

When the "all out" was sounded shortly after 8 p.m., only the shell of the Peden home remained. The interior was completely gutted by the flames.

The grief-stricken family were taken to the home of Mrs. E. T. Evans, 11237 86 street, Mrs. Peden's mother, where they spent the night. Annette, who had celebrated her tenth birthday Saturday, attended King Edward public school. She was in grade four.

Body of the child was removed to Hainstock and Son Ltd. funeral directors. Funeral arrangements will be announced later.

DAMAGE ESTIMATED at \$2,700 was caused by the fire which broke out in the Calder Lumber Yard's storage shed, 12005 129 avenue, about 11 p.m. Saturday. Flames were discovered by Len Knowles, 10715 103 street, while he was passing the premises.

Fire is believed to have started at the north end of the shed where a truck was stored. W. H. Elliott, owner of the premises, estimated that damage to the truck would amount to \$500 with stock of siding, moulding and seasoned lumber suffering \$1,200 damage and the shed \$1,000.

Cause of the fire is not known. The building was locked up at 3 p.m. Saturday and when checked by Constable W. H. Gorbol of the city police force at 10:30 p.m. all was in order.

HALS Z'S and I responded to the alarm under Fire Chief James Macgregor. Firemen quickly brought the flames under control with three lines of hose. Flames formed him Koontz had not been home all day.

She Has What Girls Dream About!

A perfect sample of every dream girl's symmetry is Esther Williams, says a famous beauty expert. She has a 26-inch waistline, 36-inch bust, and 36-inch hips.

were prevented from spreading to smaller buildings nearby.

Loss was covered by insurance. More than 1,000 bushels of wheat and a large stock of pulfed wheat are believed to have been damaged by a fire which caused more than \$1,000 damage to the Prairie Cereals Ltd. elevator at 10055 Whyte avenue Saturday night. Alarm was turned in at 8:16 p.m. by P. Elzinga, who operates a feed store at the rear of the elevator.

THE FIRE IS BELIEVED to have started in an elevator chute used to carry grain from the ground floor to the second floor. Cause of the blaze is said to have been spontaneous combustion.

Rigs from No. 6 hall answered the first alarm and when flames broke through the roof about 8:40 p.m., a second alarm was turned in bringing No. 2 hall pump into action. Three lines of hose were laid under direction of Chief Macgregor.

FIREMEN ENCOUNTERED considerable difficulty quelling flames which spread to a narrow space between the ceiling and roof of the

International Bank Meetings Scheduled

NEW YORK, March 4.—(AP)—Financial and diplomatic experts of 45 nations will meet on an island near Savannah, Ga., and Thursday to launch one of the most interesting but most complicated experiments of recent times.

Despite continuing uncertainties, and under circumstances in which India, in the absence of Russia, will be elevated to the world's financial "Big Five," the experts will seek to organize the multi-billion international monetary fund and international bank for reconstruction and development.

DIPLomatic AND FISCAL signposts point to a United States drive for the fastest possible organization of the bank as a lending agency. Some see a possible American answer to pressing demands for foreign loans. The monetary fund also could be used under certain circumstances to alleviate this pressure.

The meeting will be the first session of the boards of governors of the two institutions born at Bretton Woods.

Thirty-five governors, one for each participating country, have named for the fund, and 34 for the bank. Columbia has subscribed to the fund but not the bank.

Ten other nations, among them Russia, Australia and New Zealand, have been invited to send observers in the hope that they will eventually join.

Iran Query

(Continued from Page 1)

abide by the 1945 agreement providing for withdrawal of British and Soviet troops from Iran by last Saturday.

THE FOREIGN OFFICE also disclosed that Great Britain, the United States and France were "close to an agreement" on joint action against the Franco regime in Spain. Details were lacking.

The British cabinet met today and discussed both the Iranian and Spanish questions. However, the instructions to the British ambassador in Moscow were dispatched before the cabinet meeting.

An official Turkish spokesman in London called the Soviet decision to keep troops in Iran near the Turkish border "disappointing and regrettable."

THREE DAYS have passed since the Russian radio announced that Red troops would remain in parts of Iran indefinitely, despite the Anglo-Russian-Iranian treaty of 1942 under which all foreign troops were to be withdrawn by March 2. Not a word of official explanation has been received from Moscow.

The broadcast didn't explain the Russian reasons, and a radio broadcast isn't considered official diplomatic information.

TEHRAN, March 4.—(BUP)—Fighting between Rightists and

Passengers Unhurt As Plane Crashes On Anzio Beachhead

ROME, March 4.—(Reuters)—An all-RAF crew of two Canadians and one Briton manned the transport aircraft which crashed Friday on the former Anzio beachhead near Rome with Lt. Gen. K. N. Crawford, newly-appointed British army commander in Greece on board. It was learned here last night.

The plane was completely destroyed but none of the passengers were hurt. Gen. Crawford said the expert skill of the RAF pilot, 24-year-old Pte-Lt. Walter Dan Koolik of Blaine Lake, Sask., had saved the lives of the passengers.

His co-pilot was P.O. Herbert Patience of New Westminster, B.C.

members of the Leftist Tudeh party broke out today outside the Iranian parliament building, and a parliament session was cancelled.

The fighting started when Rightists shouted "death to the Tudeh" during Tudeh demonstrations for prolongation of the life of the present parliament.

FOUR PERSONS were injured and six were arrested. Police were ordered on the alert against any further incidents.

A cabinet minister told the foreign press that no decisions had resulted from two cabinet meetings held to discuss a Soviet decision to leave troops in this country.

The minister said no official information had been received since Premier Ahmad Ghassem left for Moscow.

Firemen Injured In Calgary Blaze

CALGARY, March 4.—(CP)—Three city firemen were taken to hospital and more than 50 persons forced from their home Sunday when fire ravaged the Ramsay block.

The Ramsay building is valued at \$100,000. Owner is Max Silver. Firemen expressed that the entire city block would be wiped out as the Ramsay block crumpled and fire swept to adjoining premises on either side shortly after 8 p.m.—two hours after the alarm had been sent in. About \$15 the fire was believed to be under control.

THE INJURED MEN were Capt. Arthur Simmons, Fireman Harold Smith, Fireman Howard Williams. The men were trapped when the front wall of the block collapsed shortly after 8 p.m. Another man may have been pinned beneath the wreckage, but workers failed to confirm this opinion.
